SHAW WALLACE FOOD SERVICES LIMITED

Shaw Wallace Food Services Limited is the dedicated food service arm of Shaw Wallace Ceylon Limited, a public Company and the successor of one of Sri Lanka's oldest firms, in the marketing and distribution business for over a century. The company currently handles several internationally and locally well-known brands in the Consumer and Automotive Divisions, and some of these brands are market leaders in their product segments.

Backed by the vast experience of the Shaw Wallace group in the distribution sector of Sri Lanka and also by the global experience of its parent company Renuka Holdings PLC, Shaw Wallace Food Services Limited caters to the demanding needs of the leading tourist hotels, restaurants, airlines, ship chandlers and manufacturers with the supply of quality, value added and innovative products and ingredients, which are manufactured locally as well as imported from internationally reputed manufacturers.

In today's highly sophisticated and competitive marketplace, what distinguishes a successful company from the rest is the quality if its products and service. Shaw Wallace Food Services Limited has identified this need amongst its clientele and concentrates on delivering the same.

Facilities & Infrastructure

Shaw Wallace Building

Situated on the highway connecting North and South of Colombo the Shaw Wallace Building is a modern 8 storey corporate Headquarters.

Shaw Wallace Warehouse

Located in close proximate to the main highway leading to the International Airport and interlinking the North Western and Southern points of Colombo as well as the second largest city of Kandy, the Shaw Wallace warehouse is a 80,000 sq ft. facility on a large area of land to grow and cater to the company's needs.

We are equipped with optimum storage and inventory systems allowing us to respond rapidly to customer demand. In order to maintain the highest standard of storage for its products, Shaw Wallace, has consistently invested in its supply chain and inventory systems.

Shaw Wallace Fleet

A fully fledged fleet to lorries and prime movers cater to the delivery requirements thus ensuring that products and services continue uninterrupted.

Shaw Wallace Manufacturing Facility

Renuka Products (Pvt) Ltd., is a dedicated manufacturing facility for Shaw Wallace, located within 20 kilometres of Colombo.

Shaw Wallace Quality,
Research and Development

Our commitment in delivering valued added, innovative products is through a meticulous process involving our R&D team. Our group's vast experience in supplying value added food and beverage products to 61 international markets which demand the best in consistence of quality requirements has enabled us to re-direct this expertise to the local food industry as well. Our in house R&D facility and experienced QA personnel assure high standards of products supplied by Shaw Wallace Food Services Limited.

Rooster® Vinegar

ARTIFICIAL

Ingredients:

Acetic Acid (food grade), Water,

Rooster Artificial Vinegar is used for the preparation of several sauces and to preserve vegetables.

In the products where it is applied, vinegar softens the fibrous structures and breaks down the fat, making the product easier to digest.

This makes vinegar suitable for preserving products.

NATURAL

Ingredients: Coconut Water.

Rooster Natural Coconut Vinegar is made by fermenting sweet sap that flows newly-formed coconut flowers and buds. As it ages, film or coin-like gels become the "mother" at the bottom of each bottle. This is a natural characteristic of raw coconut vinegar.

This product is not pasteurized or filtered and contains all the natural nutrition of raw vinegar. It contains no water, no added sugar, no preservatives and is chemical-free. Enjoy this great-tasting vinegar in cooking, dipping, marinating and pickling.

*Shake Well Before Using.
Store in a cool, dry place.*

Ingredients:

Extract of Soya Bean, Water, Wheat Flour,
Salt, Sugar, Permitted Preservatives (E211)

A common ingredient in the Asian cuisine, **Golden Dragon** soya sauce is also used as a popular condiment in western cuisine, similar to olive oil or wine. Soya sauce is used as 'liquid salt' that adds flavor and texture to various sumptuous dishes.

Golden Dragon Soya sauce is a fermented sauce made from soya beans, roasted grain, water and salt. It is commonly used in Asian cuisine and appears in some Western cuisine dishes.
